

# A hybrid communications solution for today's business

**Welcomm**  
Communications Limited

In today's competitive business environment, the ability to quickly and effectively connect with customers, partners, staff and suppliers is critical to delivering success to your business. While business success is built upon establishing and maintaining relationships, delivering exceptional levels of service, and satisfying customers; it's also built upon operating in a cost-effective manner.

Whether you need a communications solution that supports digital handsets that can re-use existing wiring, or one that provides your business with access to the latest in IP phones and productivity enhancing applications, or even one that provides mobility solutions to support your employees on the go, the Mitel® MiVoice Office 250 is the answer.

## Key Benefits

- Flexible solution that can easily scale to address an evolving business
- No more out of the office for employees on the go
- Comprehensive suite of embedded productivity applications
- Integration to business applications
- Low cost of ownership

## A complete communications solution built specifically to address business needs

Mitel MiVoice Office 250 are designed for ideally small and medium sized businesses. It provides the ability to connect employees from every location to help increase productivity and streamline customer interactions.

## Flexible hybrid solution that can easily address evolving business needs

Built on a scalable, digital-IP platform that combines the best of IP telephony and traditional digital-based phone system architectures. It allows you to easily take advantage of re-using your existing wiring, greatly reducing the costs of deploying a new communications solution

## No more out of the office for employees while away from their desks

Your employees can easily “twin” their desk phone with up to 8 other communications devices, providing enhanced personal accessibility. Calls can ring all twinned devices at the same time or cascade from 1 device to the next. Also calls answered on their desk phone can be easily handed-off to their twinned mobile device, when they need to be mobile.

## Comprehensive suite of business productivity applications

MiVoice Office 250 can provide your business with a complete communications solution that can address all your communications, audio conferencing, client interaction, mobility and messaging needs. Furthermore it supports a range of external, next-generation unified communications that can be easily added to the solution to further enhance employee productivity.

## Low total cost of ownership

When it comes to acquiring a new communications solution for your business, purchase price along should not be the sole determining factor, but rather the solution's total cost of ownership, which takes into account all costs associated with a solution, including the positive effects it will have on the business over a period of time. With Mitel MiVoice Office 250, decision making can be made more streamlined, customers served more proficiently and employees made more productive; all with a communications solution that offers one of the lowest total costs of ownership.
