

With the iPhone SE, Apple have put the brains of an iPhone 11 Pro in the body of an iPhoneSE. The CPU at the core of the device, the A13 Bionic, is the fastest ever chip in a smartphone.

The advanced camera system with A13 Bionic brings you Portrait mode, which artfully blurs the background to put the focus on your subject — even when you're taking selfies.

Next-generation Smart HDR knows a face when it sees one, and intelligently relights it to capture more natural-looking contours and skin tones. It also finesses highlight and shadow detail in the background. So every part of your photo looks amazing.

Touch ID lets you securely unlock your iPhone and sign in to apps instantly. You can even use it with Apple Pay to grab a coffee, get a yoga app or shop for trainers online. All without reaching for your credit card.

iPhone SE is water resistant to 1 metre for 30 minutes. It's not afraid of a little coffee, tea or juice either. And dust? No worries.

Dual SIM with eSIM lets you have both a business number and a personal number on the same iPhone.

## iPhone SE 2020

### Specification

<b>BATTERY</b>		<b>IP RATING</b>	
<b>Battery:</b>	1,821 mAh	<b>IP Rating:</b>	IP67 dust/water resistant
<b>CAMERA</b>		<b>MEMORY</b>	
<b>Main Camera:</b>	Single 12MP	<b>Memory:</b>	64GB 3GB RAM, 128GB 3GB RAM, 256GB 3GB RAM
<b>Selfie Camera:</b>	Single 7MP	<b>MEMORY TYPE</b>	
<b>CHARGING</b>		<b>Memory Type:</b>	Internal
<b>Wireless Charging:</b>	Qi Wireless Charging	<b>OS</b>
