

Running your business demands energy, performance and innovation – everything you'll find in Nokia X10. Superfast 5G¹ and the full HD+ screen lets you power through your work. Meanwhile, the 48 MP quad camera with ZEISS Optics will capture all that's important to you. Plus, the pro color-grading tools will help you present your ideas with real flair. You'll also get the latest Android™ 11, and up to 2-years of software upgrades and monthly security updates, so you can enjoy new features now and in the future.

Work and unwind at 5G warp speed

5G can power up your business, letting you do more, quicker. Think video conferences, sending files, downloading big presentations and making connections, all up to 20x faster.² And when productivity is up, so is your down time. Win, win.

Security that gets safer and safer

With security updates every month for up to 3 years, all your biggest and most important files, videos, photos and data are in safe hands.

Software that keeps getting better

Android 11 brings a host of innovative features to your phone, like being able to see, respond to and control your conversations across multiple messaging apps, all in the same spot. So, no matter how in-demand you get, you'll never miss a thing. And with regular software updates, you'll be ahead of the competition and enjoying new features for years to come.

Share your work with the world

Our latest 48 MP quad camera with ZEISS Optics combined with a full suite of editing and grading tools means you've got everything you need to create standard-raising photos and videos. And with 5G¹ you can share the inspiration instantly. Where art meets productivity.
