Powerful. Easy to use. Versatile. The new iPad is designed for all the things you love to do. Work, play, create, learn, stay connected, and more. All at an incredible price.

With all-day battery life, iPad is ready to work or play for as long as you need it.

With incredible detail and vivid colours, the 10.2-inch Retina display is perfect for watching movies, working on a project, or drawing your next masterpiece.

Centre Stage makes video calls more engaging by automatically adjusting to keep you centred in the frame. And it lets you create fun videos for posting to popular social apps.

Using Apple Pencil is as natural as putting pen to paper, but with capabilities that make handwriting as powerful as typed text.

iPadOS 15 pushes the capabilities of iPad further with more discoverable multitasking, new ways to find and organise information, and enhanced note-taking.

Like every Apple product, iPad was designed with your privacy and security in mind. It's not always easy. But that's the kind of innovation we believe in.
