

Comes with a large screen, an awesome camera and all the essentials your customers will need to stay connected at the speed of 5G.[1] Your customers will be ready for the workday’s challenges with the fast-charging,[2] long-lasting battery. They can confidently handle work on the go with a battery that lasts.

They can stay productive with virtually lag-free 5G[1] and the fast, reliable processor of Galaxy A14 5G. Business users can download and share content quickly with a phone that keeps them up to speed.

Your customers can keep their most important documents to hand. Whether they are in the office or travelling for business they are covered with 64GB of internal storage and room for up to 1TB more when they add a microSD card.[3]

They can keep their meetings going when they switch from their phone to their Tab, or vice versa, with Google Meet.[4] Users can use Google Meet to start a video chat on their Tab, and then continue the call on their phone as they head out the door.

Features and specifications are subject to change without prior notification. 1. Requires optimal 5G network connection, available in select markets. Check with your carrier for availability and details. Download and streaming speeds may vary based on content providers, server connection and other factors. 2. Wall chargers are sold separately; use only Samsung-approved chargers and cables. To avoid injury or damage to your device, do not use incompatible, worn or damaged batteries, chargers or cables. Supports up to 15W Fast Charging. For more information on your device, please visit www.samsung.com. 3. microSD card
