

The tough tablet that is designed for tough work.

The Galaxy Tab Active4 Pro is built to withstand even the most demanding work. It's a sleek, premium productivity powerhouse that frontline workers can really count on.

The Galaxy Tab Active4 Pro is built to withstand even the most demanding work. It's a sleek, premium productivity powerhouse that frontline workers can really count on.

It's built strong, with military-grade durability and IP68 water and dust resistance. The compatible S Pen is safe from splashes, too. On top of that, your customers can use the touch screen even while wearing gloves. So, whether they're treating patients in a busy hospital or working on a dusty construction site, they can work with total confidence.

When they need to act fast, they can use the physical Active Key to launch any chosen app instantly. It's also mPOS-ready, so they can take payments from customers on the go.

It's tough inside too. Protected by Samsung Knox and built-in biometric security, it keeps data in the right hands. It also works harder for longer, thanks to its next-gen mobile processor and exceptional battery life. When power does run low, you can swap out the battery for a spare – or even run it without a battery at all, when plugged into a vehicle or kiosk.
