Cyber Essentials
Plus certification

Cyber essentials plus is the older, slightly more involved sibling of the standard certification. It has the same requirements as Cyber Essentials (you must have all five security controls in place) but differs in one crucial aspect. While Cyber Essentials is self-assessed, Cyber Essentials Plus also includes an independent assessment carried out by a licensed auditor.

After you've completed the self-assessment portion of the certification one of auditors will either come to you or remotely access your network and manually check for the five Cyber Essentials controls. This provides you with absolute assurance that your cybersecurity is up to scratch. And customers don't have to take your word that you're cyber secure they can rely on the expertise of a professional.

KEY FEATURES:

✔ Unlimited expert guidance to ensure you pass the first time

✔ Certification within 24 hours

✔ Independent assessment from an expert auditor (remote or on-site)

✔ £25k free enhanced cyber insurance with certification

CYBER ESSENTIALS PLUS

CYBER ESSENTIALS

ISO 27001 Certified

"
A nice and smooth transition from CE to CE+ with great support and a great price. Thank You
